

Resolution Response from Pheasants Forever, Inc. and Quail Forever:

I want you to know that Pheasants Forever and Quail Forever in Missouri is committed to the conservation of pheasants, quail, and other wildlife. To that end, we fully support Resolution #2023-10, the Support for Creation of a Missouri Small Game Hunting Challenge. This resolution not only creates opportunities for R3 efforts across the state but creates the potential for more public access to the Missouri Department of Conservation Areas and within the Missouri Recreational Access Program. In states that have been hosting small game slam challenges, increased permit revenue has been documented, generating more funds directed toward critical habitat restoration. With the state's long-standing reputation for habitat conservation and partnerships, this small game challenge effort will be another absolute win for Missouri.
